

Residential Mortgage / RMBS Trader External Data Reference Guide

Prepared Sep 30, 2026 · Public/commercial external sources only.

Prepared Sep 30, 2026. *Public/commercial external sources only.* This guide does not reference, describe, or rely on any internal systems, data, or desk sheets. Every link was checked when the guide was prepared; websites move, so if a deep link breaks, go to the site root listed and navigate from there. No market levels are quoted anywhere in this document on purpose: the point is to tell you where to get the current number, not to give you a number that will be stale by the time you read it.

Cost key used throughout: **Free** = open to anyone. **Free w/ reg** = free but requires an account. **Paid** = subscription or license, tagged as **Must-request** (ask the firm for access now), **Nice to have**, or **Skip** (not worth it for a temporary coverage role). All times are **Central Time (CT)** unless marked otherwise; most US releases are scheduled in Eastern Time (ET), which is one hour ahead of CT.

Contents

1. How to use this guide (incl. “PM asks X → go to Y” quick-answer table)
2. Rates and the curve (Treasuries, SOFR/swaps, Fed path, volatility and breakevens)
3. Mortgage rates: which source, when (incl. mortgage-to-10Y and primary-secondary spread)
4. Spreads and MBS pricing (agency TBA, non-agency, CRT, broad credit)
5. Deal flow and new issue (incl. shelf names by issuer)
6. Credit performance and surveillance
7. Prepayments
8. Housing and macro fundamentals (incl. economic calendar)
9. Industry news and market color
10. Regulatory and policy
11. Paid access: what to request from the firm (incl. Bloomberg functions)
12. Daily, weekly and monthly calendar (Central Time)
13. Answering PMs (source hierarchy, rules, worked examples)

Appendix A: What is only available paid · Appendix B: Full link index

1. How to use this guide

1.1 The three-step routine

1. **Translate the vague question into a metric.** “Where are Non-QM spreads?” really means “What spread over the curve did the most recent AAA Non-QM senior tranches price at, and how does that compare with a month ago?” Section 1.2 does this translation for the most common questions.
2. **Go to the highest-quality source that has that metric.** Official data beats index providers, which beat rating agencies, which beat trade press, which beat social media (see Section 13). If the only real source is paid, say so and use the best free proxy while you request access.

3. **Answer with a date-stamp and a source.** Say what the number is, when it was observed, where it came from, and whether it is survey, index, or transaction data. For example: “Per Freddie Mac PMMS released Thursday (applications Thu–Wed), versus the 10-year CMT average over the same window.”

1.2 Quick-answer table: “PM asks X → go to Y”

The most common PM questions and where to go first.

PM asks	Go to first	Specific metric to quote	Backup / paid upgrade
“Where are mortgage rates today?”	MND Daily Index (~3:00 pm CT)	30Y conforming rate today and day-over-day change	Optimal Blue OBMMI on FRED (OBMMIC30YF, one-day lag); Bloomberg
“Where are mortgage rates vs 10s?”	Freddie PMMS + FRED DGS10	PMMS 30Y minus 10Y CMT averaged over the same Thu–Wed window, in bp; trend vs 4 and 52 weeks	MND index minus same-day 10Y close; Urban Institute chartbook
“Where is the primary-secondary spread?”	Urban Institute chartbook (monthly chart)	Mortgage rate minus current-coupon MBS yield	Bloomberg current-coupon ticker (confirm with desk); dealer research
“Where are jumbo rates vs conforming?”	FRED: OBMMIJUMBO30YF vs OBMMIC30YF	Jumbo-minus-conforming lock-rate differential (bp)	MND jumbo commentary; Optimal Blue Market Data (paid)
“Where are Non-QM spreads?”	Trade press deal stories (ASR, HousingWire), dealer research, broker color	Latest AAA senior spread and coupon on recent Non-QM deals, with deal names and dates	Finsight/CreditFlow, Asset-Backed Alert, Bloomberg NIM (paid)
“What did the last Non-QM deal price at?”	Finsight/CreditFlow (free w/ reg for basic views) + rating-agency new-issue reports	Tranche sizes, ratings, CE levels, pricing spreads or coupons, pool WAC/FICO/CLTV	Bloomberg NIM/DES; IFR; Asset-Backed Alert
“What did the last CRT deal price at?”	Fannie Mae CAS Pricing page; Freddie Mac STACR Pricing page	Tranche spread over 30-day SOFR, size, CE, ratings, per deal	Dealer CRT research; Bloomberg
“Where are Non-QM / DSCR note rates to borrowers?”	Latest presale reports (KBRA, Fitch, Morningstar DBRS)	Pool weighted-average coupon (WAC), split by DSCR vs full-doc/bank statement	dv01 and Fitch-dv01 benchmarks (paid); Optimal Blue non-QM data (paid)
“How’s DSCR / investor credit performing?”	Rating-agency surveillance and research pieces; KBRA/Fitch Non-QM research	60+ DQ, 90+ DQ, CDR and loss by vintage, DSCR vs non-DSCR split	dv01, Intex, KBRA Premium RMBS indices (paid)
“How’s Non-QM credit performing overall?”	Fitch / KBRA / Morningstar DBRS research; Asset Securitization Report	Serious delinquency trend by vintage; roll rates if available	dv01 (paid, best), Intex, Cotality PLS data
“How’s prime jumbo credit?”	Rating-agency surveillance; Fitch-dv01 prime jumbo benchmark (paid)	60+ DQ and CPR for recent jumbo shelves (SEMT, JPMMT, etc.)	dv01, Intex
“How’s agency credit / overall mortgage credit?”	ICE First Look (monthly); MBA NDS (quarterly)	National DQ rate, serious DQ, foreclosure starts; by product (FHA/VA/conv)	NY Fed Household Debt & Credit (quarterly); Fed DRSFRMACBS on FRED
“What’s the prepay outlook?”	ICE First Look (SMM); MBA Refi Index (weekly); Fannie/Freddie monthly prepay disclosures	Last month SMM/CPR, refi application trend, share of borrowers in the money	eMBS, Recursion, dealer prepay reports (paid/broker)
“What were speeds this month?”	Fannie Mae Data Dynamics / Freddie Mac MBS disclosures (4th business day)	1-month CPR by coupon/vintage	eMBS, Recursion, Bloomberg; dealer CPR-day notes
“Where are RTL / fix-and-flip deals clearing?”	Rating-agency new-issue reports for rated RTL (e.g., LHOME, TRK); trade press	Deal size, advance rates, CE, coupon; note most RTL is unrated/private	Broker color; Finsight/CreditFlow

PM asks	Go to first	Specific metric to quote	Backup / paid upgrade
"What's going on in HELOC / closed-end seconds?"	Rating-agency presales for CES/HELOC shelves (RCKT CES, FIGRE, BRAVO CES)	Pool CLTV, FICO, WAC; senior spread from deal stories	dv01 CES/HELOC benchmarks; Finsight
"How much Non-agency issuance YTD?"	SIFMA MBS statistics; ASR issuance totals	YTD issuance by sector vs prior year	Finsight/CreditFlow, Inside Mortgage Finance (paid)
"Where's the 10-year / 2s10s?"	CNBC quote (intraday); Treasury par curve (end-of-day)	10Y yield and 2s10s slope in bp; change on the day	FRED T10Y2Y (next day); Bloomberg
"What is the market pricing for the Fed?"	CME FedWatch	Probability of a cut/hike at the next meeting; implied path	Bloomberg WIRP; Fed dot plot for comparison path
"What does the Fed think?"	FOMC statement, SEP / dot plot, minutes	Median dot for year-end, statement language changes	Fed speaker calendar; Nick Timiraos (WSJ)
"Where are credit spreads broadly (HY/IG)?"	FRED ICE BofA OAS series	BAMLH0A0HYM2 (HY OAS), BAMLCOA0CM (IG OAS), BAMLCOA4CBBB (BBB OAS)	Bloomberg; dealer credit research
"How volatile are rates?"	MOVE index (Bloomberg, broker screens); VIX on FRED (VIXCLS)	MOVE level and change; realized 10Y moves	Swaption vol from dealer research
"Where are home prices going?"	S&P Cotality Case-Shiller; FHFA HPI; ICE HPI (Mortgage Monitor)	YoY and MoM (SA) HPA, national and top MSAs	Cotality HPI (paid detail); Zillow ZHVI
"How are rents? (DSCR angle)"	Zillow ZORI; Apartment List national rent data	YoY rent growth, vacancy index	Census rental vacancy (FRED RRVRSQ156N)
"How's housing activity?"	NAR existing sales; Census new home sales/starts; NAHB HMI	SAAR sales, months' supply, starts/permits, builder sentiment	Redfin / Realtor.com weekly data
"What's inventory doing?"	Realtor.com research data; Redfin data center	Active listings YoY, new listings, days on market	FRED ACTLISCOUUS (Realtor.com)
"What are the forecasters saying on originations/rates?"	Fannie Mae ESR forecast; MBA forecast	Origination volume, purchase vs refi, rate path	Freddie Mac research; dealer outlooks
"Is credit tightening?"	MBA Mortgage Credit Availability Index (monthly); Fed SLOOS (quarterly)	MCAI level/change by segment; net % banks tightening	Trade press on lender guideline changes
"Any regulatory changes that matter?"	FHFA news; Fannie/Freddie seller communications; CFPB	Loan limits, LLPAs, credit score policy, QM rule changes	Inside Mortgage Finance (paid); law-firm client alerts
"What's the macro calendar this week?"	BLS, BEA, Census, Fed calendars	Date/time (CT) of CPI, payrolls, PCE, GDP, FOMC	Bloomberg ECO; Investing.com calendar

2. Rates and the curve

Mortgage pricing is a spread product, so almost every answer starts with the Treasury and swap curve. Know three things cold: where the 10-year is (the benchmark PMs and the press use for mortgage rates), where the 2s10s and 5s/10s slope is (drives hedge ratios and the relative value of shorter-duration product such as RTL and HELOCs), and what the market is pricing for the Fed (drives the front end, SOFR-floating CRT coupons, and warehouse funding costs).

2.1 Treasury yields

Treasury yield sources.

Source	What you get	Cost	When it updates	Best used for	Link
U.S. Treasury Daily Par Yield Curve	Official par yields 1M–30Y (the “CMT” curve); real yield curve on a separate page	Free	Business days; based on indicative bid quotes collected at or near 2:30 pm CT; usually posted late afternoon/evening (time not guaranteed)	The official end-of-day curve for date-stamped answers	home.treasury.gov – Daily Treasury Par Yield Curve
Treasury Interest Rate Statistics (methodology)	Explanation of how the par curve is built	Free	Static	Understanding what “CMT” means when a PM asks	home.treasury.gov – Interest Rate Statistics
FRED constant-maturity series	DGS1MO, DGS3MO, DGS2, DGS5, DGS10, DGS30; spreads T10Y2Y, T10Y3M	Free	Daily, generally posted the following business day (sourced from Fed H.15)	Charts, history, spreads, Excel downloads, combining with mortgage series	fred.stlouisfed.org/series/DGS10
Federal Reserve H.15 Selected Interest Rates	Daily Treasury CMT, fed funds, commercial paper	Free	Daily (business days)	Official citation for historical rates	federalreserve.gov/releases/h15
CNBC bond quotes	Real-time-ish Treasury yields, intraday charts	Free	Intraday	Fast “where’s the 10-year right now?” check	cnbc.com/quotes/US10Y
WSJ Market Data – Bonds	Treasury yields, benchmark rates table	Free (some content paywalled)	Intraday / end of day	Quick table of the curve	wsj.com/market-data/bonds
TreasuryDirect upcoming auctions	Auction schedule and results	Free	Ongoing; most coupon auction results post at 12:00 pm CT	Knowing when 10Y/30Y supply hits (can move MBS)	treasurydirect.gov – Upcoming auctions
Bloomberg Terminal	Live curve, USGG10YR Index etc., BTMM monitor	Paid – Must-request	Real time	Everything live; the professional standard	bloomberg.com/professional

2.2 SOFR, swaps, and floating-rate benchmarks

SOFR matters for three reasons in this role: CRT (CAS and STACR) coupons float over 30-day average SOFR, many warehouse and repo lines are priced off SOFR or Term SOFR, and swap spreads affect how agency and non-agency paper is hedged and valued.

SOFR and swap-rate sources.

Source	What you get	Cost	When it updates	Best used for	Link
NY Fed SOFR	Official SOFR rate, volume, percentiles	Free	Around 7:00 am CT each business day (can be revised until 1:30 pm CT)	Official overnight SOFR	newyorkfed.org – SOFR

Source	What you get	Cost	When it updates	Best used for	Link
NY Fed SOFR Averages & Index	30-, 90-, 180-day compounded averages; SOFR Index	Free	Shortly after the SOFR release	CRT coupon math (30-day average SOFR)	newyorkfed.org – SOFR Averages and Index
FRED SOFR series	SOFR, SOFR30DAYAVG, EFFR, DFEDTARU/DFEDTARL (target range)	Free	Daily	Charting SOFR vs fed funds and target range	fred.stlouisfed.org/series/SOFR
CME Term SOFR	1M/3M/6M/12M forward-looking Term SOFR	Free to view (license for commercial use)	Daily	Loan/warehouse benchmarks	cmegroup.com – Term SOFR
Chatham Financial market rates	Swap rates, SOFR forward curve, Treasury rates (free display)	Free	Daily	Quick free swap-rate and forward-curve check	chathamfinancial.com – US market rates
Pensford forward curve	SOFR forward curve and rate-cap context	Free	Daily	Quick forward SOFR path	pensford.com/forward-curve
Bloomberg (SWPM, curve screens)	Live swap curve, swap spreads, forwards	Paid – Must-request	Real time	Precise swap/hedge levels	bloomberg.com/professional

Free swap-rate pages (Chatham, Pensford) are fine for context (“the 5-year swap is roughly X”) but should not be used to mark positions. For anything that goes into a price or a hedge ratio, use Bloomberg or dealer runs.

2.3 The Fed path

Fed policy sources.

Source	What you get	Cost	When it updates	Best used for	Link
CME FedWatch	Market-implied probabilities for each FOMC meeting from fed funds futures	Free	Real time during futures trading	“What’s priced for the next meeting?”	cmegroup.com – FedWatch
FOMC meeting calendar, statements, minutes	Meeting dates, statements (1:00 pm CT on decision day), minutes (1:00 pm CT, about three weeks after)	Free	Per schedule (8 meetings/year)	Knowing when event risk hits	federalreserve.gov – FOMC calendars
Summary of Economic Projections (dot plot)	Median and dispersion of FOMC participants’ rate, growth, inflation, unemployment projections	Free	Quarterly (March, June, September, December meetings)	“What does the Fed itself expect?”	Guide to the SEP ; latest: Sept 16, 2026 SEP
Fed events calendar	Speeches, testimony by Board members	Free	Updated continuously	Knowing which Fed speakers are on today	federalreserve.gov – Calendar
Nick Timiraos (WSJ chief economics correspondent)	Widely read reporting on Fed thinking	WSJ Paid (X posts free)	Ad hoc, heaviest around FOMC	Reading the Fed’s likely message before meetings	x.com/NickTimiraos ; wsj.com
Bloomberg WIRP	World interest rate probabilities (implied policy path)	Paid – Must-request	Real time	Precise implied path	bloomberg.com/professional

2.4 Rate volatility and inflation expectations

Volatility and inflation-expectation sources.

Source	What you get	Cost	When it updates	Best used for	Link
ICE BofA MOVE Index	Treasury implied volatility index (the rates “VIX”)	Paid for full data (quoted on Bloomberg as MOVE Index; often shown on free charting sites)	Daily	Explaining why MBS spreads widened/tightened (MBS are short volatility)	ice.com – fixed income indices
Cboe VIX / FRED VIXCLS	Equity implied volatility	Free	Daily (FRED next day)	Risk-sentiment context	fred.stlouisfed.org/series/VIXCLS ; cboe.com – VIX
FRED breakevens	T5YIE, T10YIE (breakeven inflation), T5YIFR (5y5y forward); DFII10 (10Y TIPS real yield)	Free	Daily (next business day)	“Is the move in 10s real yields or inflation?”	fred.stlouisfed.org/series/T10YIE
Treasury real yield curve	Official TIPS par real yields	Free	Business days	Official real-yield citation	home.treasury.gov – Real Yield Curve
Cleveland Fed inflation nowcast	Daily nowcast of CPI/PCE	Free	Daily	Pre-CPI expectations	clevelandfed.org – Inflation Nowcasting
Atlanta Fed GDPNow	Running nowcast of current-quarter GDP	Free	Several times a month after major data	Growth context	atlantafed.org – GDPNow

Why vol matters for mortgages. Mortgage borrowers hold a prepayment option, so an MBS investor is effectively short an option. When implied volatility (MOVE) rises, the option is worth more, and agency MBS spreads tend to widen; when vol falls, spreads tend to tighten. Many DSCR/investor loans carry prepayment penalties and some Non-QM borrowers have less ability to refinance, so that collateral can be less negatively convex; its spreads still move with overall risk appetite.

3. Mortgage rates: which source, when

Different “mortgage rate” numbers measure different things. A PM who sees one number on CNBC and another from Freddie Mac will ask why they differ, so know the construction of each.

The four kinds of mortgage-rate data.

Type	Examples	What it really measures	Strength	Weakness
Survey / application-based weekly average	Freddie Mac PMMS; MBA contract rate	Average rate on applications over a past window	Long history, official-feeling, press standard	Lags the market by days; weekly only
Daily rate-sheet index	Mortgage News Daily (MND) index	Lender rate-sheet pricing for a standard top-tier scenario, adjusted for points	Same-day, tracks MBS moves closely	Not transaction data; one borrower profile
Lock-based transaction index	Optimal Blue OBMMI	Average rate on actual locks made through the Optimal Blue pricing engine the prior day	Real transactions, product and FICO/LTV splits	One-day lag; mix effects (borrower profile changes shift the average)

Type	Examples	What it really measures	Strength	Weakness
Consumer-facing quote aggregators	Bankrate, Zillow	Advertised/quoted rates to consumers	Easy, widely cited in press	Least precise; methodology varies; includes points assumptions

3.1 Source-by-source

Mortgage-rate sources.

Source	What you get	Cost	When it updates	Best used for	Link
MND Daily Mortgage Rate Index	Daily 30Y conforming (plus 15Y, FHA, VA, jumbo) from lender rate sheets	Free	Weekdays around 3:00 pm CT; may update intraday if lenders reprice	"Where are rates today?" and day-over-day moves	mortgagenewsdaily.com/mortgage-rates/mnd ; methodology: About MND's rates
Freddie Mac PMMS	Weekly 30Y and 15Y fixed averages from applications submitted to Freddie Mac's Loan Product Advisor (conventional, conforming, purchase)	Free	Thursdays 11:00 am CT (Wednesday if Thursday is a holiday); covers Thursday–Wednesday applications	The headline number press and PMs quote; long history	freddiemac.com/pmms ; FRED MORTGAGE30US / MORTGAGE15US
MBA Weekly Applications Survey	Purchase and Refi indices, refi share, average contract rates (30Y conforming, jumbo, FHA, 15Y, ARM) and points	Free headline (full data for MBA members/paid)	Wednesdays 6:00 am CT, for the prior week	Refi demand (prepay signal), purchase demand, contract rates incl. jumbo	mba.org – Weekly Applications Survey
Optimal Blue OBMMI	Daily lock-based indices: 30Y conforming, 15Y conforming, jumbo, FHA, VA, USDA, and conforming by LTV/FICO buckets	Free (on Optimal Blue site and FRED)	Nightly with the prior business day's locks; FRED posts the next morning	Transaction-based rates; jumbo vs conforming; credit-tier spreads	optimalblue.com – OBMMI; FRED OBMMI release
Optimal Blue Market Data License	Loan-level lock data, including Non-QM product fields	Paid – Nice to have	Daily	Non-QM/DSCR primary-market rate levels and volumes	optimalblue.com – Market Analytics
Bankrate	Consumer-quoted mortgage rates by product	Free	Daily	Consumer-facing context only	bankrate.com – Mortgage rates
Zillow mortgage rates	Consumer-quoted rates from its marketplace	Free	Daily/intraday	Consumer-facing context only	zillow.com – Mortgage rates

FRED series IDs for mortgage rates (all verified): MORTGAGE30US and MORTGAGE15US (Freddie PMMS, weekly); OBMMIC30YF (30Y conforming), OBMMIC15YF (15Y conforming), OBMMIJUMBO30YF (30Y jumbo), OBMMIFHA30YF (FHA), OBMMIVA30YF (VA), OBMMIUSDA30YF (USDA), and OBMMIC30YFLVLE80FGE740 (30Y conforming, LTV ≤ 80 and FICO > 740) — all Optimal Blue, daily.

3.2 Jumbo, Non-QM, DSCR and RTL rates

There is no free, official daily index for Non-QM, DSCR, or RTL borrower rates. Be explicit with PMs about that, then use the following proxies in this order:

1. **Recent securitization presale reports (best free proxy).** Every rated Non-QM, DSCR, CES, HELOC, and RTL deal comes with a presale or new-issue report (KBRA, Fitch, Moody's, S&P, Morningstar DBRS) that states the pool's weighted-average coupon (WAC), FICO, LTV/CLTV, DSCR, documentation type, and prepayment-penalty share. Comparing the WAC across the last several deals from the same shelf gives a defensible read on where borrower note rates are. Remember that pools are aggregated over prior months, so presale WACs lag the current rate sheet by roughly one to three months.

2. **OBMMI jumbo (FRED OBMMIJUMBO30YF)** for prime jumbo; compare with OBMMIC30YF for the jumbo-conforming differential. The MBA Weekly Applications Survey also reports a jumbo contract rate.
3. **Lender public pricing and marketing pages.** Some Non-QM and DSCR wholesale lenders publish “starting at” rates or sample pricing; most full rate sheets sit behind broker logins. Treat any public number as a marketing floor for the best borrower profile, not a market level. Do not cite a single lender’s page as “the market.”
4. **Trade press:** Scotsman Guide, National Mortgage Professional (NMP), HousingWire, and National Mortgage News regularly cover Non-QM/DSCR product and pricing trends and lender guideline changes. Useful for color, not for levels.
5. **Paid data:** Optimal Blue Market Data License (includes Non-QM fields), dv01 (loan-level Non-QM performance, including note rates), and broker/dealer color.

For **RTL (fix-and-flip/bridge)**, rates are short-term, often floating or fixed for 12–24 months, and set loan by loan by private lenders. Rated RTL deals (for example Kiavi’s LHOME and Toorak’s TRK shelves) publish pool coupon and leverage metrics in the rating reports; beyond that, rely on broker color and trade press.

3.3 Mortgage-to-10Y spread and the primary-secondary spread

Mortgage-to-10Y spread (the “headline spread”). This is the spread most PMs mean when they say “mortgage rates versus 10s.”

- *Weekly, standard method:* Freddie Mac PMMS 30Y rate minus the average of daily 10Y CMT yields (FRED DGS10) over the same Thursday–Wednesday window the survey covers. Express in basis points. Using only the Thursday 10Y close overstates noise.
- *Daily method:* MND 30Y index minus the 10Y yield at the same afternoon time (MND publishes around 3:00 pm CT; use the 10Y around then, or the Treasury end-of-day par yield and note the timing mismatch). Alternatively use OBMMIC30YF minus the prior day’s DGS10, because OBMMI reflects the prior day’s locks.
- *In FRED:* build a graph with MORTGAGE30US and DGS10, set the frequency to weekly (ending Thursday), and apply the formula $a - b$. Say in your answer which method you used.
- *How to interpret:* compare against its own 1-year range and pre-2022 history. A wide spread can reflect elevated rate volatility, wide MBS spreads to Treasuries, or high originator margins; you need the next decomposition to know which.

Primary-secondary spread. Mortgage rate (primary) minus the yield on the current-coupon agency MBS (secondary). It captures guarantee fees, servicing strip, and originator profit/capacity. The **secondary spread** is the current-coupon MBS yield minus a Treasury benchmark (commonly the 10Y or a 5Y/10Y blend), which captures MBS spread to Treasuries (driven by vol, demand from banks/Fed/money managers, and supply).

- The current-coupon yield is not published free in a clean daily series. It is available on Bloomberg (ask the desk to confirm the current-coupon index ticker) and in dealer research.
- The Urban Institute’s monthly *Housing Finance at a Glance* chartbook charts the primary-secondary spread and is the best free citation.
- Decomposition to use in an answer: $\text{Mortgage rate} - 10Y = (\text{Mortgage rate} - \text{CC MBS yield}) + (\text{CC MBS yield} - 10Y)$. “Primary-secondary” plus “secondary spread” equals the headline spread.

4. Spreads and MBS pricing

Be candid: there is almost no free, reliable source for live MBS prices or non-agency spreads. Agency TBA prices and non-agency secondary levels are dealer-quoted and platform-traded markets. Free sources give you context and history; live levels come from Bloomberg, trading platforms, and dealer runs.

4.1 Agency TBA / UMBS prices, current coupon, OAS

Agency MBS pricing sources.

Source	What you get	Cost	When it updates	Best used for	Link
Bloomberg Terminal	Live TBA prices by coupon (UMBS, GNMA II), current-coupon yield, OAS via YAS, dollar rolls	Paid – Must-request	Real time	Live TBA levels, CC spread, OAS	bloomberg.com/professional
Tradeweb	Electronic TBA and specified-pool trading, Treasuries	Paid (institutional platform access) – Must-request if you will execute	Real time	Execution and live dealer quotes for TBA	tradeweb.com
MND MBS dashboard	Free MBS/Treasury overview page (MND has noted periods of free-price outages due to data-provider issues)	Free	Intraday when available	Rough directional read	mortgagenewsdaily.com/mbs
MBS Live (MND's paid service)	Streaming UMBS/GNMA prices, Treasuries, live commentary for lenders	Paid – Nice to have (cheap; aimed at loan officers)	Real time	Low-cost live TBA screen if no Bloomberg	mbslive.net
FINRA TRACE – TBA and MBS	Disseminated trade prices for TBA, agency pass-throughs, CMOs	Free (agree to user terms)	Real-time dissemination; aggregate stats end of day	Checking actual trade prints and volumes	finra.org – Fixed Income Data
Dealer research (via brokers)	Daily MBS commentary, CC spread, OAS by coupon, relative value	Free to clients (ask coverage)	Daily/weekly	Levels and narrative	Ask your broker-dealer coverage for distribution lists
Urban Institute chartbook	Monthly charts of primary-secondary spread, MBS issuance and holders	Free	Monthly	Free historical citation	urban.org – Housing Finance at a Glance

FRED does not carry a current-coupon MBS yield or TBA price series, so any free “current coupon” number you find on a third-party site should be checked against Bloomberg or dealer research before you cite it.

4.2 Non-agency, Non-QM, jumbo, CES/HELOC spreads

Non-agency spread sources.

Source	What you get	Cost	When it updates	Best used for	Link
Dealer securitized-products research	Weekly spread tables for Non-QM AAA/AA/A/BBB, prime jumbo, CES, HELOC, CRT; new-issue recaps	Free to clients	Weekly (often Friday)	The standard answer to “where are spreads?”	Ask broker-dealer coverage
Finsight / CreditFlow	New-issue deal database, pricing (tranche spreads/coupons), roadshow materials; RMBS pipeline views	Free w/ reg (basic); Paid for full data – Must-request	Intraday as deals price	“What did the last deal price at?”	finsight.com ; creditflowresearch.com

Source	What you get	Cost	When it updates	Best used for	Link
Asset-Backed Alert (Green Street)	Weekly newsletter on ABS/MBS deal pipeline, pricing, market players; issuance databases	Paid – Nice to have	Weekly + alerts	Pipeline and who's issuing what	greenstreet.com (abalert.com redirects here)
Asset Securitization Report (Arizent)	Deal stories with coupons/structure, weekly ABS totals and league tables	Free headlines; Paid full access – Nice to have	Daily	Deal-level color, issuance totals	asreport.americanbanker.com
Bloomberg (NIM, DES, ALLQ, TRACE data)	New-issue monitor, deal descriptions, dealer quotes, cash flows	Paid – Must-request	Real time	Levels, deal terms, runs	bloomberg.com/professional
Intex	Deal cash-flow models for virtually all RMBS/CRT; scenario analysis	Paid – Must-request if you will price bonds	Monthly with remits; new deals as modeled	Yield/spread-at-price, loss scenarios	intex.com
FINRA TRACE – Securitized products	Disseminated trade data for ABS/MBS/CMO (dissemination rules differ by product)	Free (with user terms)	Per dissemination rules	Verifying that trades happened and approximate levels	finra.org – Fixed Income Data
MarketAxess	Electronic trading platform (mainly corporate bonds; some securitized)	Paid (platform) – Skip unless trading there	Real time	Execution	marketaxess.com

How to answer “where are Non-QM spreads?” without a terminal. Pull the last three to five priced Non-QM deals from trade press and rating-agency new-issue reports (Section 5), note the AAA senior coupon and, if reported, the spread; then check at least one dealer weekly for the spread table. Say “AAA Non-QM seniors on deals priced in the past two weeks came at approximately X per [source, date]” rather than quoting one print. Note the benchmark: most Non-QM seniors are fixed-rate and quoted as a spread to the interpolated Treasury (or swaps) at the expected weighted-average life.

4.3 CRT (CAS and STACR) spreads

CRT spread sources.

Source	What you get	Cost	When it updates	Best used for	Link
Fannie Mae CAS Pricing	Every CAS deal: tranche sizes, spreads over SOFR, CE, ratings	Free	As deals price	New-issue CRT spreads, history	Fannie Mae – CAS Pricing
Fannie Mae CRT home	CAS/CIRT issuance calendar, deal documents, disclosure data	Free (some data free w/ reg)	Ongoing	Calendar and documents	capitalmarkets.fanniemae.com – CRT
Freddie Mac STACR Pricing	Every STACR deal: tranche sizes, spreads, CE, ratings	Free	As deals price	New-issue CRT spreads, history	Freddie Mac – STACR Pricing
Freddie Mac CRT home	STACR/ACIS calendars, pipeline report, deal docs, tender offers, call notices	Free	Ongoing	Calendar, calls, tenders	capitalmarkets.freddiemac.com/crt
Dealer CRT research	Secondary spreads by tranche/vintage, relative value	Free to clients	Weekly	Secondary CRT levels	Ask broker-dealer coverage

4.4 Broad credit-spread context (FRED, ICE BofA indices)

When a PM asks whether mortgage credit is “cheap,” the first comparison is corporate credit. These FRED series are verified: **BAMLH0A0HYM2** (ICE BofA US High Yield OAS), **BAMLC0A00CM** (ICE BofA US Corporate/IG OAS), **BAMLC0A4CBBB** (ICE BofA BBB OAS), and **BAMLH0A3HYC** (ICE BofA CCC & Lower OAS). They update daily with a one-business-day lag. ICE licensing may limit how much history FRED displays, so download what you need. Link: fred.stlouisfed.org/series/BAMLH0A0HYM2.

5. Deal flow and new issue

5.1 Where new deals show up (roughly in order of timing)

1. **Dealer calendars and Bloomberg NIM** (paid/client) as deals are announced and marketed.
2. **Rating-agency presale reports** as the deal launches. Most agencies publish a free press release; full presales usually require free registration (KBRA, Fitch, Morningstar DBRS) and some are subscriber-only (Moody's, S&P). Presales are the best free source of collateral and structure detail.
3. **Finsight/CreditFlow** and **Asset-Backed Alert** for pipeline and pricing.
4. **Trade press** (ASR, HousingWire, IFR, Inside Nonconforming Markets) once priced.
5. **SEC EDGAR**: ABS-15G filings (third-party due-diligence reports and repurchase reports) are often filed around the time of issuance even for 144A deals, and public (registered) shelves file prospectuses and 8-Ks.
6. **Issuer press releases** (Business Wire, PR Newswire, GlobeNewswire) and quarterly earnings materials for public issuers (e.g., Annaly, Rithm, Redwood, Angel Oak Mortgage REIT, MFA, Ellington).

New-issue and deal-flow sources.

Source	What you get	Cost	When it updates	Best used for	Link
KBRA	Presales, new-issue reports, surveillance actions and research for Non-QM, prime, CES, HELOC, RTL	Free w/ reg (reports); KBRA Premium analytics Paid	As deals launch/price	Collateral and structure detail, CE levels	kbra.com – RMBS transactions
Fitch Ratings	Presales, new-issue reports, RMBS research and performance commentary	Free w/ reg (many reports); some Paid	As deals launch	Presales; sector research	fitchratings.com – RMBS
Morningstar DBRS	Presales, provisional/final rating press releases, rating reports	Free w/ reg	As deals launch	Presales (very active in Non-QM, RTL, HELOC)	dbrs.morningstar.com
Moody's Ratings	Pre-sale reports, rating actions	Press releases free; research mostly Paid – Nice to have	As deals launch	Rating actions	moody's.com
S&P Global Ratings	Presales, rating actions, sector research	Press releases free w/ reg; research mostly Paid – Nice to have	As deals launch	Rating actions	spglobal.com/ratings

Source	What you get	Cost	When it updates	Best used for	Link
Finsight / CreditFlow	New-issue calendar, deal database, pricing, roadshows	Free w/ reg (basic); Paid full	Intraday	Pricing and calendar	finsight.com
Asset-Backed Alert	Weekly pipeline scoops and issuance stats	Paid – Nice to have	Weekly	Early pipeline intelligence	greenstreet.com
Asset Securitization Report	Priced-deal stories, weekly issuance totals, league tables	Free headlines / Paid	Daily	Priced-deal recaps	asreport.americanbanker.com
Inside Mortgage Finance – Inside Nonconforming Markets	Biweekly newsletter on non-agency: jumbo, Non-QM, seconds, securitization, rankings	Paid – Nice to have	Biweekly	Issuance rankings and market share	insidemortgagefinance.com – INM
SEC EDGAR full-text search	ABS-15G, prospectuses, 8-Ks, 10-D distribution reports (public deals)	Free	Continuous	Primary documents; due-diligence results	sec.gov/edgar/search
Business Wire / PR Newswire / GlobeNewswire	Rating-agency and issuer press releases	Free	Continuous	Fast deal announcements (KBRA releases run on Business Wire)	businesswire.com ; prnewswire.com ; globenewswire.com
Bloomberg NIM / NI screens	New-issue monitor, deal news	Paid – Must-request	Real time	Live pipeline	bloomberg.com/professional

EDGAR tip: in full-text search, type the shelf name in quotes (for example “Verus Securitization Trust”) and filter the form type to ABS-15G. The due-diligence reports (often from AMC, Clayton, Consolidated Analytics, Evolve, etc.) summarize loan-level grades and data-integrity findings for the pool.

5.2 Shelf names by issuer (verified against 2025–2026 rating-agency or press materials)

Common shelves. Shelf naming conventions change; confirm the exact series on the rating-agency report.

Sector	Shelf / Bloomberg-style ticker	Issuer / sponsor	Notes
Non-QM	VERUS (Verus Securitization Trust)	Invictus Capital Partners, via Verus Mortgage Capital	One of the largest Non-QM programs
Non-QM / prime / CES	OBX (OBX Trust)	Onslow Bay Financial (Annaly)	Multiple series incl. Non-QM and expanded prime
Non-QM	AOMT (Angel Oak Mortgage Trust)	Angel Oak	Also HB (home equity) series
Non-QM	CROSS (CROSS Mortgage Trust)	Hildene Capital Management, affiliated with CrossCountry Mortgage	Frequent issuer
Non-QM	COLT (COLT Mortgage Loan Trust)	Lone Star Residential	Not Ellington; see EFMT below
Non-QM	EFMT	Ellington Financial	Ellington’s own Non-QM shelf
Non-QM	NRMLT (New Residential Mortgage Loan Trust)	Rithm Capital (serviced by Newrez)	Rithm also issues other series
Non-QM / RPL	PRPM	Pretium (PRP)	NQM and re-performing (RCF) series
Non-QM	GCAT	GCAT depositor entities (Blue River Mortgage sponsored earlier series)	NQM and INV series; confirm current sponsor on the report

Sector	Shelf / Bloomberg-style ticker	Issuer / sponsor	Notes
Non-QM	MFA (MFA 20XX-NQM)	MFA Financial	Ticker is “MFA,” not “MFRA”
Non-QM / CES / RPL	BRAVO (BRAVO Residential Funding Trust)	PIMCO affiliates (Loan Funding Structure entities)	Includes CES series
Prime jumbo	SEMT (Sequoia Mortgage Trust)	Redwood Trust	Also HYB (hybrid ARM) series
Prime jumbo	JPMMT (J.P. Morgan Mortgage Trust)	J.P. Morgan	Prime, HYB and other series
Agency-eligible / prime	CHASE (e.g., CHASE 20XX-AGY)	JPMorgan Chase	Agency-eligible investor loans
Closed-end seconds	RCKT (RCKT Mortgage Trust 20XX-CES)	Rocket Mortgage affiliate	Large CES program
HELOC / seconds	FIGRE (FIGRE Trust)	Figure	HE (HELOC), FL and other series
RTL (fix-and-flip)	LHOME (LHOME Mortgage Trust)	Kiavi	Revolving RTL structures
RTL	TRK (Toorak Mortgage Trust)	Toorak Capital Partners	Rated RRTL series
CRT	CAS (Connecticut Avenue Securities)	Fannie Mae	Floats over 30-day average SOFR
CRT	STACR (Structured Agency Credit Risk)	Freddie Mac	Floats over 30-day average SOFR; DNA/HQA series

Other shelves you will hear about (not individually verified for this guide, confirm on the rating report): Towd Point (TPMT), Starwood (STAR), Deephaven (DRMT), Citigroup (CMLTI), Mill City, and various HELOC/CES programs from bank and non-bank originators.

6. Credit performance and surveillance

Separate the question first: is the PM asking about **the whole mortgage market** (agency-dominated, answered by ICE, MBA, NY Fed), **non-agency collateral** (Non-QM, DSCR, jumbo, CES/HELOC, RTL; answered by rating agencies and loan-level data vendors), or **a specific bond** (answered by the trustee remittance report and Intex/Bloomberg)?

6.1 Market-wide mortgage credit

Market-wide mortgage credit sources.

Source	What you get	Cost	When it updates	Best used for	Link
ICE First Look	National delinquency, serious DQ, foreclosure starts/inventory, prepayment SMM, by product and state	Free	Monthly, typically in the fourth week of the following month	First read on monthly mortgage performance and prepays	mortgagetechnology.com – Data reports
ICE Mortgage Monitor	Deep-dive on performance, equity, home prices (ICE HPI), insurance/escrow, originations	Free	Monthly, typically early in the month	Charts for PM decks; tappable equity (HELOC/CES theme)	mortgagetechnology.com – Data reports
MBA National Delinquency Survey	DQ and foreclosure rates by loan type (conventional, FHA, VA) and state	Free summary; full data Paid	Quarterly, several weeks after quarter-end	Official-style quarterly DQ citation	mba.org – NDS
NY Fed Household Debt and Credit Report	Mortgage and HELOC balances, originations by credit score, transition into delinquency, foreclosures	Free	Quarterly	Consumer-credit health; HELOC balance trends	newyorkfed.org – HHDC

Source	What you get	Cost	When it updates	Best used for	Link
FRED – Fed delinquency rate	DRSFRMACBS (single-family residential mortgage DQ at commercial banks); DRCLACBS (consumer loans)	Free	Quarterly	Long bank-portfolio history	fred.stlouisfed.org/series/DRSFRMACBS
FHFA National Mortgage Database	Aggregate statistics on outstanding residential mortgages, performance	Free	Quarterly	Official aggregate performance	fhfa.gov – NMDB statistics
Fannie Mae / Freddie Mac loan-level performance data	Loan-level acquisition and performance history for the GSE books (CRT reference pools)	Free w/ reg	Quarterly	CRT credit analysis; building your own curves	Fannie Mae loan performance data ; Freddie Mac SF loan-level dataset
Fannie Mae Data Dynamics	Web tool for GSE loan performance, CRT deal performance, MBS disclosures	Free w/ reg	Monthly (per data refresh calendar)	CAS deal-level performance checks	Fannie Mae – Data Dynamics
Freddie Mac CRT (Clarity)	STACR/ACIS deal and loan-level disclosures	Free w/ reg	Monthly	STACR deal performance	capitalmarkets.freddie.mac.com/crt

6.2 Non-agency collateral (Non-QM, DSCR, jumbo, CES/HELOC, RTL)

Non-agency performance sources.

Source	What you get	Cost	When it updates	Best used for	Link
KBRA research and surveillance	Non-QM default studies, redemption/call research, surveillance rating actions; KBRA Premium RMBS credit indices (DQ, mods, prepays)	Free w/ reg (research); Premium Paid – Nice to have	Periodic research; monthly indices (Premium)	Non-QM/DSCR performance narratives; call economics	kbra.com ; KBRA Premium – RMBS
Fitch Ratings RMBS research	Sector outlooks, performance commentary, rating actions	Free w/ reg (many)	Periodic	Sector view, rating trends	fitchratings.com – RMBS
Morningstar DBRS	Surveillance actions and performance commentary on Non-QM, RTL, HELOC shelves	Free w/ reg	Periodic	RTL/HELOC surveillance	dbrs.morningstar.com
Moody's / S&P	Surveillance and sector research	Mostly Paid – Nice to have	Periodic	Ratings-driven context	moodys.com ; spglobal.com/ratings
dv01	Loan-level performance for Non-QM, prime jumbo, CES, HELOC and other consumer assets; Fitch-dv01 non-agency RMBS benchmarks; tape cracking	Paid – Must-request	Monthly (with servicer/trustee data)	The best standardized view of Non-QM/DSCR performance by shelf, vintage, doc type	dv01.co
Intex	Deal-level collateral performance and waterfall; bond-level projections	Paid – Must-request	Monthly with remits	Bond-level surveillance and triggers	intex.com
Cotality (formerly CoreLogic)	Private-label securities loan-level data (legacy CoreLogic LoanPerformance), HPI, property data	Paid – Nice to have	Monthly	Non-agency loan-level history; property analytics	cotality.com

Source	What you get	Cost	When it updates	Best used for	Link
ICE McDash (servicing data)	Loan-level servicing performance across agency and non-agency	Paid – Skip for temporary coverage (enterprise license)	Monthly	Market-wide loan-level analysis	ice.com – mortgage data
Scotsman Guide / HousingWire / ASR	Articles summarizing agency reports on Non-QM/DSCR performance	Free (ASR partially Paid)	Ongoing	Quick narrative citations	scotsmanguide.com ; housingwire.com

Metrics to have ready for “how is DSCR credit performing?” 60+ day delinquency (including foreclosure and REO) as a percent of current balance, by vintage and shelf; the trend over the last three to six months; cumulative loss (usually still small for recent vintages, so look at DQ and roll rates); modification and forbearance rates; and, for DSCR specifically, performance split by DSCR bucket (for example below 1.0x versus 1.0x+), property type (1–4 unit, condo, short-term rental), and loan purpose (cash-out refi versus purchase). Rating-agency reports and dv01 are where these splits live.

6.3 Bond-specific surveillance: trustee remittance reports

Non-agency RMBS pay monthly on a distribution date set in the deal documents (commonly around the 25th, but check each deal). Before each distribution date the trustee, paying agent, or securities administrator posts a **remittance (distribution) report** with collections, principal and interest by class, delinquencies, losses, modifications, trigger tests, and bond factors.

- **Where:** the investor-reporting portals of the trustee or securities administrator named in the offering document. Common names in RMBS include U.S. Bank, Computershare (which acquired Wells Fargo’s corporate trust business), Wilmington Trust, Citibank, Deutsche Bank, and BNY. Portals generally require registration and confirmation that you are an investor in the deal.
- **Public deals:** registered (public) deals also file distribution reports on Form 10-D with the SEC, searchable on EDGAR.
- **CRT:** Fannie Mae (Data Dynamics) and Freddie Mac (Clarity) post monthly deal and loan-level disclosures.
- **Aggregated:** Intex and Bloomberg load remittance data into their models shortly after posting; dv01 standardizes across shelves.

7. Prepayments

“What’s the prepay outlook?” has two parts: **what speeds just did** (last factor/CPR release) and **what drives the next few months** (refi incentive, turnover/housing activity, seasonality, and day count).

Prepayment sources.

Source	What you get	Cost	When it updates	Best used for	Link
Fannie Mae MBS disclosures / Data Dynamics prepayment snapshot	Monthly prepayment data (CPR) by cohort; pool and loan-level disclosure files (PoolTalk)	Free w/ reg	Monthly on business day 4 (factor date)	Agency speeds on “CPR day”	Fannie Mae – MBS; Data Dynamics
Fannie Mae daily (intra-month) prepayment report	Cohort-level cumulative full-voluntary prepayments during the month	Free w/ reg (PoolTalk)	Weekly, Wednesdays about 3:30 pm CT	Previewing the next monthly print	Fannie Mae – MBS

Source	What you get	Cost	When it updates	Best used for	Link
Freddie Mac daily prepayment report	Cumulative daily SMM/CPR for select cohorts	Free w/ reg	Updated weekly	Previewing the next monthly print	Freddie Mac – Daily Prepayment Report
Freddie Mac MBS disclosures	Monthly pool/loan-level disclosure data	Free w/ reg	Monthly (factor date)	Agency speeds	capitalmarkets.freddiemac.com/mbs
Ginnie Mae disclosure data	Pool/loan-level disclosures for GNMA MBS (FHA/VA speeds, buyouts)	Free	Monthly (after conventional factors)	FHA/VA speeds, buyout activity	ginniemae.gov
ICE First Look	National SMM and prepay trend for all loans	Free	Monthly (fourth week of following month)	Market-wide prepay trend in one number	mortgagetechnology.ice.com – Data reports
MBA Refinance Index (Weekly Applications Survey)	Weekly refi application index and refi share	Free headline	Wednesdays 6:00 am CT	Leading indicator for refi-driven speeds (lead of roughly one to two months to prints)	mba.org – Weekly Applications Survey
ICE eMBS	Pre-calculated agency prepayment data, aggregations, pool/loan-level history	Paid – Nice to have (Must-request if agency pools are a focus)	Monthly + intra-month	Standard agency prepay database	embs.ice.com
Recursion	Loan-level agency analytics (Cohort Analyzer), prepay/DQ/S-curves; blog with occasional free analysis	Paid (analytics); blog Free	Daily data updates for clients	Custom agency cohort analysis	recursionco.com
Dealer prepay research	CPR-day recaps, prepay projections by coupon/vintage, model updates	Free to clients	Monthly (around factor dates) + weekly	The consensus prepay outlook	Ask broker-dealer coverage
Bloomberg	Pool and cohort speeds, prepay projections (e.g., in YAS/deal screens)	Paid – Must-request	Monthly / real time	Bond-specific speeds	bloomberg.com/professional
dv01 / Intex / remit reports	Non-agency voluntary prepay (CRR/CPR) by deal	Paid (dv01, Intex); remits free to investors	Monthly	Non-QM/jumbo/CES speeds	dv01.co ; intex.com

Framework for “what’s the prepay outlook?”

1. *Last print*: quote the latest monthly CPR for the relevant cohort (agency from GSE disclosures or dealer CPR-day notes; non-agency from dv01/Intex/remits) and ICE’s national SMM.
2. *Refi incentive*: compare the current mortgage rate (MND/OBMMI) with the WAC of the pool or deal. Loans roughly 50 bp or more in the money are the usual reference point for meaningful refi incentive; state the assumption you use.
3. *Leading indicators*: MBA Refi Index trend over the last four weeks, Fannie/Freddie intra-month daily prepay reports.
4. *Turnover*: existing home sales and pending home sales (Section 8); seasonality (spring/summer faster, winter slower); day count in the month.
5. *Non-agency specifics*: prepayment penalties (common in DSCR), borrower refinance ability (Non-QM credit cure can raise speeds), call rights (Non-QM deals are often callable after a few years and redemption economics depend on spread levels; KBRA publishes research on Non-QM redemptions).

8. Housing and macro fundamentals

Home prices drive loss severity and CLTV (key for CES/HELOC and RTL exit values); rents drive DSCR coverage; sales volume drives turnover prepayments; and the macro calendar drives rates.

8.1 Home prices

Home price sources.

Source	What you get	Cost	When it updates	Best used for	Link
S&P Cotality Case-Shiller (renamed from S&P CoreLogic Case-Shiller in March 2025)	National, 10-/20-city composites and metro repeat-sales indices, SA and NSA	Free	Last Tuesday of the month, 8:00 am CT; about a two-month lag	The most-quoted HPA number; metro detail	spglobal.com – S&P Dow Jones Indices; FRED CSUSHPINS / CSUSHPISA

Consumer sentiment (prelim/final)	Univ. of Michigan	Fridays mid/late month, 9:00 am	Inflation expectations	sca.isr.umich.edu
Consumer confidence	Conference Board	Last Tuesday, 9:00 am	Consumer health	conference-board.org – Consumer Confidence
FOMC decision / press conference	Federal Reserve	1:00 pm / 1:30 pm on decision day	Front-end and curve	federalreserve.gov – FOMC calendars
Fed H.8 (bank assets incl. MBS holdings)	Federal Reserve	Fridays, 3:15 pm	Bank demand for MBS	federalreserve.gov – H.8
Treasury coupon auctions	Treasury	Results around 12:00 pm on auction days	Supply; 10Y/30Y auctions move MBS	treasurydirect.gov – Upcoming auctions

9. Industry news and market color

News, color and research sources.

Source	What you get	Cost	When it updates	Best used for	Link
HousingWire	Mortgage industry news, data stories (ICE, MBA, Freddie), lender and capital-markets coverage	Free (some premium)	Daily	Fast industry news	housingwire.com
National Mortgage News (Arizent)	Mortgage industry and secondary-market news	Free headlines; Paid full	Daily	Secondary-market stories	nationalmortgagenews.com
National Mortgage Professional (NMP)	Originator-focused news, Non-QM product coverage	Free	Daily	Non-QM/DSCR product trends	nationalmortgageprofessional.com
Scotsman Guide	Residential and commercial originator news and data features, Non-QM coverage	Free	Daily/monthly	Non-QM lender landscape	scotsmanguide.com
Mortgage News Daily	Daily rate index, MBS commentary, market recaps	Free (MBS Live Paid)	Daily	Daily rate/MBS narrative	mortgagenewsdaily.com
Inside Mortgage Finance	Origination/servicing/MBS rankings; newsletters incl. Inside Nonconforming Markets and Inside MBS & ABS	Paid – Nice to have	Weekly/biweekly	Market-share and volume data	insidemortgagefinance.com
Asset Securitization Report	Securitization deals, issuance totals, league tables	Free headlines / Paid	Daily	Deal recaps	asreport.americanbanker.com

Source	What you get	Cost	When it updates	Best used for	Link
American Banker	Banking and policy news (bank mortgage appetite, regulation)	Paid (limited free)	Daily	Bank/regulatory angle	americanbanker.com
Asset-Backed Alert (Green Street)	Structured-finance pipeline and market intel	Paid – Nice to have	Weekly	Pipeline intel	greenstreet.com
Bloomberg News	Markets, Fed, securitization reporting	Paid (terminal or bloomberg.com subscription)	Real time	Breaking market news	bloomberg.com
Wall Street Journal	Markets, economy; Nick Timiraos on the Fed	Paid	Daily	Fed and macro narrative	wsj.com
Axios Markets	Short daily markets newsletter	Free	Daily	Quick morning context	axios.com – Axios Markets
The Daily Upside	Business/markets newsletter	Free	Daily	Light morning context	thedailyupside.com
Urban Institute – Housing Finance at a Glance	Monthly chartbook: market size, originations, primary-secondary spread, credit availability, performance, GSE and Ginnie data	Free	Monthly (typically month-end)	Best free chart pack for PM decks	urban.org – chartbook series
SIFMA Research – statistics	MBS and ABS issuance, trading volume, outstanding	Free	Monthly/quarterly	Issuance and volume citations	SIFMA – US MBS statistics ; SIFMA – US ABS statistics
Structured Finance Association	Industry policy positions, conferences (e.g., SFVegas)	Free (membership for some content)	Periodic	Policy and industry events	structuredfinance.org
Apollo – The Daily Spark (Torsten Slok)	Daily macro chart with commentary	Free	Daily	One-chart macro talking points	apollo.com – The Daily Spark
Dealer research (via brokers)	Securitized products weeklies, MBS dailies, prepay and credit research, outlooks	Free to clients	Daily/weekly	Levels, relative value, consensus	Ask each broker-dealer coverage contact to add you to distribution

Getting dealer research while covering. Ask each broker-dealer’s securitized-products salesperson to add you to (1) the daily MBS/rates commentary, (2) the weekly securitized-products or non-agency spreads report, (3) CPR-day and prepay research, and (4) new-issue alerts for Non-QM, jumbo, CES/HELOC, RTL and CRT. Also ask for access to their research portal. Firm compliance may require that research access be provisioned through approved channels, so check before signing up.

10. Regulatory and policy

Regulatory and policy sources.

Source	What you get	Cost	When it updates	Best used for	Link
FHFA	GSE policy, conforming loan limits, HPI, g-fee and capital rules, news releases	Free	Ongoing; loan limits announced annually (late in the year)	Anything touching the GSEs	fhfa.gov ; news
FHFA conforming loan limits	Baseline and high-cost area limits by county	Free	Annually	Jumbo vs conforming boundary	fhfa.gov – Conforming Loan Limit

Source	What you get	Cost	When it updates	Best used for	Link
CFPB – ATR/QM	Ability-to-Repay/Qualified Mortgage rule resources	Free	As amended	The line between QM and Non-QM	consumerfinance.gov – ATR/QM
Regulation Z §1026.43	Text of the ATR/QM requirements	Free	As amended	Citing the rule itself	consumerfinance.gov – 12 CFR 1026.43
HMDA data (CFPB/FFIEC)	Loan-level origination data (annual), incl. non-QM-type characteristics	Free	Annually (plus quarterly for large filers)	Origination market share, lender landscape	consumerfinance.gov – HMDA; ffiec.cfpb.gov
Fannie Mae seller communications	Selling Guide announcements, lender letters	Free	Ongoing	LLPA, eligibility and policy changes	Fannie Mae – Selling Policy Communications; Selling Guide
Freddie Mac Single-Family Guide	Guide bulletins and seller/servicer updates	Free	Ongoing	Freddie policy changes	guide.freddiemac.com ; sf.freddiemac.com
Ginnie Mae	APMs (policy memos), MBS program data	Free	Ongoing	Government-loan policy	ginniemae.gov
Federal Reserve H.15 / H.8	Selected interest rates; bank balance sheets including MBS	Free	H.15 daily; H.8 weekly (Fridays)	Official rates; bank MBS demand	H.15 ; H.8
SEC EDGAR	Shelf registrations, Reg AB filings, ABS-15G	Free	Continuous	Securitization disclosure	sec.gov/edgar/search

11. Paid access: what to request from the firm

11.1 Ranked shortlist

Ranked for someone temporarily covering a residential whole-loan/RMBS seat who must answer PM questions credibly. Many of these may already be licensed at the firm; the request may simply be for a seat or login.

Ranked paid-access requests.

Rank	Product	Tag	One-line justification
1	Bloomberg Terminal (with mortgage/securitized functionality)	Must-request	Live Treasuries, swaps, TBA, current coupon, new-issue monitor, deal and bond analytics, dealer runs and news in one place; the reference source PMs expect.
2	Dealer research portals and distribution lists (via broker coverage)	Must-request (usually free to clients)	The standard source for weekly Non-QM/jumbo/CES/CRT spread tables, CPR-day analysis, and new-issue recaps.
3	dv01	Must-request	Standardized loan-level performance across Non-QM, DSCR, prime jumbo, CES and HELOC shelves, plus Fitch-dv01 benchmarks; answers “how’s DSCR credit performing?” directly.
4	Intex	Must-request	Cash-flow models for RMBS and CRT; needed to compute yield/spread at a price and run loss and prepay scenarios on specific bonds.
5	Finsight / CreditFlow (full access)	Must-request	Fastest structured new-issue calendar and pricing database; answers “what did the last deal price at?”
6	Tradeweb (if execution is in scope)	Must-request if trading	Live dealer quotes and execution for TBA, specified pools and Treasuries.

Rank	Product	Tag	One-line justification
7	Asset-Backed Alert (Green Street)	Nice to have	Weekly pipeline intelligence on who is coming to market and investor demand.
8	Inside Mortgage Finance (Inside Nonconforming Markets; Inside MBS & ABS)	Nice to have	Non-agency origination and securitization rankings and market-share data.
9	ICE eMBS	Nice to have (Must-request if agency pools are a focus)	Standard agency prepayment database for cohort and pool speeds.
10	Optimal Blue Market Data License	Nice to have	Daily lock-level data including Non-QM fields: the only systematic read on Non-QM/DSCR borrower rates and volumes.
11	KBRA Premium (RMBS)	Nice to have	Monthly RMBS credit indices (DQ, mods, prepays) and deal analytics from a Non-QM-heavy rater.
12	Asset Securitization Report full access	Nice to have	Paywalled deal stories and deal database.
—	Cotality PLS data, ICE McDash, Recursion, Moody's/S&P research subscriptions, MarketAxess, 1010data	Skip for a temporary role	Enterprise-scale data licenses or overlap with the above; use them if the firm already has them.

11.2 Bloomberg functions and tickers useful to a mortgage trader

Functions marked **Confident** are standard, widely documented Bloomberg functions. Items marked **Confirm with desk** are ones commonly referenced for mortgages but that you should verify on the terminal (type the mnemonic and use HELP HELP or the function search if needed).

Bloomberg functions and tickers.

Function / ticker	What it does	Status
YAS	Yield and spread analysis for a bond (price ↔ yield/spread, prepay/default assumptions for MBS/ABS)	Confident
ALLQ	All dealer quotes for a security	Confident
DES	Security description (deal and tranche terms)	Confident
CFLO	Projected cash flows for a bond	Confident
NIM	New Issue Monitor (live new-issue pipeline, filterable by asset class)	Confident
SRCH	Fixed income security search	Confident
LEAG	League tables	Confident
BTMM	US Treasury and money-market monitor	Confident
CRVF	Curve finder (locate curves such as Treasury, swaps, MBS)	Confident
SWPM	Swap manager (swap pricing and curve)	Confident
WIRP	World interest rate probability (market-implied Fed path)	Confident
ECO	Economic calendar with consensus	Confident
GP / HP	Price graph / historical prices for any ticker	Confident

Function / ticker	What it does	Status
TOP / N	Top news; news main menu	Confident
USGG2YR / USGG10YR / USGG30YR Index	Generic Treasury yields	Confident
SOFRRATE Index	SOFR	Confident
MOVE Index / VIX Index	Rates and equity implied volatility	Confident
MTGE	Mortgage/secured products menu	Confirm with desk
MTGEFNCL Index	Fannie Mae 30-year current-coupon yield	Confirm with desk
TRACE-based trade screens for securitized products	Disseminated TRACE prints within Bloomberg	Confirm with desk
Cohort prepayment screens	Agency cohort CPR history and projections	Confirm with desk

12. Daily, weekly and monthly calendar (Central Time)

12.1 Daily routine

Daily routine.

Time (CT)	What to check	Source
6:30–7:30 am	Overnight rates move; today's data calendar and Fed speakers; SOFR (7:00 am)	CNBC/Bloomberg; BLS/BEA/Census calendars; Fed calendar; NY Fed
7:30 am	Data releases (payrolls, CPI, claims, GDP/PCE, starts) and the market reaction	Agency release page; CNBC/Bloomberg
8:00–9:00 am	Morning dealer commentary; new-issue announcements and presales; rating-agency press releases	Dealer emails; KBRA/Fitch/DBRS; Business Wire; Finsight
9:00 am	Housing data (existing/new/pending sales, HMI, Case-Shiller/FHFA at 8:00 on release days)	NAR, Census, NAHB, S&P, FHFA
Midday	Curve and MBS check; deal pricing talk; Treasury auction results (~12:00 pm on auction days)	Bloomberg/Tradeweb; dealer color; TreasuryDirect
~3:00 pm	MND daily rate index; mortgage-to-10Y spread update	MND; CNBC or Treasury curve
Late afternoon	Treasury par curve (official close); priced-deal recaps; ASR/HousingWire	Treasury; trade press
Next morning	FRED updates prior day (DGS series, OBMMI, ICE BofA OAS)	FRED

12.2 Weekly

Weekly calendar.

Day	Time (CT)	Item	Source
Monday	—	Plan the week: data calendar, FOMC blackout/speakers, expected new-issue deals	BLS/BEA/Census; Fed; dealer calendars

Day	Time (CT)	Item	Source
Wednesday	6:00 am	MBA Weekly Applications (purchase, refi, contract rates incl. jumbo)	MBA
Wednesday	~3:30 pm	Fannie Mae intra-month (daily) prepayment report update	Fannie Mae PoolTalk
Thursday	7:30 am	Initial jobless claims	DOL
Thursday	11:00 am	Freddie Mac PMMS	Freddie Mac
Friday	Varies	Dealer weekly spread tables; Fed H.8 (3:15 pm); ASR deal database refresh	Dealers; Fed; ASR
Weekly	Varies	Freddie Mac daily prepayment report update; Realtor.com/Redfin weekly housing data	Freddie Mac; Realtor.com; Redfin

12.3 Monthly and quarterly

Monthly and quarterly calendar.

When	Item	Source
1st–3rd business day	ISM Manufacturing / Services	ISM
First Friday (usually)	Employment Situation	BLS
Business day 4 (evening)	Fannie Mae / Freddie Mac factors and monthly prepayment data (“CPR day”)	Fannie Mae, Freddie Mac; dealer notes
A few business days later	Ginnie Mae factors/disclosures	Ginnie Mae
Early month	ICE Mortgage Monitor; MBA MCAI; Fannie Mae ESR and MBA forecasts (dates vary)	ICE; MBA; Fannie Mae
Mid-month	CPI, PPI, housing starts, NAHB HMI	BLS; Census; NAHB
Around the 25th	Non-agency RMBS and CRT distribution dates; trustee remittance reports posted beforehand; Intex/dv01 updates follow	Trustee portals; Intex; dv01
Fourth week	ICE First Look; existing and new home sales; Case-Shiller and FHFA HPI (last Tuesday)	ICE; NAR; Census; S&P; FHFA
Late month	PCE/personal income; Urban Institute chartbook	BEA; Urban Institute
Monthly (per SIFMA schedule)	MBS/ABS issuance statistics	SIFMA
Quarterly	MBA National Delinquency Survey; NY Fed Household Debt & Credit; Fed SLOOS; FHFA quarterly HPI; SEP/dot plot (Mar/Jun/Sep/Dec FOMC); public-issuer earnings (Annaly, Rithm, Redwood, etc.)	MBA; NY Fed; Fed; FHFA; company IR sites
Annually (late year)	Conforming loan limits for the next year	FHFA

13. Answering PMs

13.1 Source hierarchy

1. **Official / primary data:** Treasury, Federal Reserve, NY Fed, BLS, BEA, Census, FHFA, the GSEs' own disclosures, SEC filings, trustee remittance reports.
2. **Index and data providers with published methodology:** Freddie Mac PMMS, Optimal Blue OBMMI, MND index, ICE, S&P Cotality Case-Shiller, ICE BofA indices, dv01, Intex, Bloomberg.
3. **Rating agencies:** KBRA, Fitch, Moody's, S&P, Morningstar DBRS presales, surveillance and research.
4. **Dealer research:** high quality but each dealer has a view; cite the dealer and date, and compare two where possible.
5. **Trade press:** ASR, HousingWire, Inside Mortgage Finance, Asset-Backed Alert, Bloomberg/WSJ. Good for what happened, not for precise levels unless they cite a primary source.
6. **Social media and forums:** only as a pointer to a primary source, never as the source itself.

13.2 Rules for every answer

- **Date-stamp everything.** "As of the 9/24 PMMS" or "deals priced 9/15–9/26."
- **Name the source and its type.** Survey (PMMS), rate-sheet index (MND), lock data (OBMMI), transaction prints (TRACE), dealer quote, or modeled value (Intex/YAS).
- **Give a comparison.** Level plus change versus last week, last month, and one year ago, or versus its range. A level alone rarely answers the real question.
- **Separate fact from view.** State the data, then clearly label any interpretation ("my read is...").
- **Flag gaps honestly.** If the only precise source is paid (live TBA levels, Non-QM spreads, loan-level DSCR performance), say so, give the best free proxy, and say when you will have the better number.
- **Keep a log.** A simple dated file of questions asked, answers given, and sources makes follow-ups consistent and helps the trader when they return.

13.3 Worked examples (methodology only; no numbers are implied)

Example 1: "Where are mortgage rates versus 10s?"

1. Pull the latest Freddie Mac PMMS 30Y rate (Thursday, 11:00 am CT) and note the window it covers (Thursday–Wednesday applications).
2. Download DGS10 from FRED and average the daily values over the same window.
3. Spread = PMMS – average 10Y, in bp. Compute the same for four weeks ago and 52 weeks ago.
4. Cross-check with a daily measure: MND index minus the 10Y around 3:00 pm CT, or OBMMIC30YF minus the prior day's DGS10.
5. If asked why the spread is wide or narrow, decompose it with the Urban Institute chartbook's primary-secondary chart plus a dealer current-coupon spread.
6. *Answer template:* "Per PMMS for the week ended [date], the 30Y averaged [x]%, [y] bp over the average 10Y for the same window, versus [a] bp a month ago and [b] bp a year ago. MND's daily index today is [z]%, consistent with / wider than that. Most of the change came from [primary-secondary / secondary spread] per [source]."

Example 2: "Where are Non-QM spreads?"

1. List Non-QM deals priced in the last two to three weeks from ASR, HousingWire, Finsight and rating-agency final reports (Section 5.2 shelves).
2. For each, record the AAA (A-1) coupon and spread if reported, tranche WAL, and pool characteristics (WAC, FICO, CLTV, DSCR share, doc type) from the presale.
3. Check at least one dealer weekly spread table for the current AAA/AA/A/BBB Non-QM levels and the week-over-week change.

4. Note the context: rates vol (MOVE), broad credit spreads (FRED HY/IG OAS), and issuance pace (SIFMA/ASR YTD totals).
5. *Answer template:* “AAA Non-QM seniors on [n] deals priced [dates] cleared around [range] per [source(s)], versus [range] a month ago per [dealer, date]. Collateral on recent deals: WAC [x], FICO [y], DSCR share [z]. Tone: [tighter/wider] alongside [HY/IG moves / rates vol].”

Example 3: “How’s DSCR credit performing?”

1. Start with the latest rating-agency research on Non-QM/DSCR performance (KBRA, Fitch, Morningstar DBRS) and any recent trade-press summaries.
2. If dv01 is available, pull 60+ DQ, roll rates and loss by vintage for DSCR loans versus full-doc/bank-statement loans, and by DSCR bucket and property type.
3. Check macro drivers: rent growth (Zillow ZORI, Apartment List), home prices (Case-Shiller, FHFA, ICE HPI), and rental vacancy.
4. Compare with the broader market (ICE First Look DQ rate) so the PM sees whether DSCR is diverging.
5. *Answer template:* “Per [agency report/dv01, date], DSCR 60+ DQ is [x]% for [vintages], up/down [y] over [period]; weaker pockets are [vintage/DSCR < 1.0x/STR]. Rent growth per [source] is [trend], home prices per [source] are [trend], so severities [should/should not] be a concern.”

Example 4: “What’s the prepay outlook?”

1. Quote the latest monthly speeds (GSE disclosures or dealer CPR-day note for agency; dv01/Intex for non-agency) and ICE First Look’s national SMM.
2. Compare the current mortgage rate (MND/OBMMI) with the pool or deal WAC to size the refi incentive.
3. Check the four-week trend in the MBA Refi Index and the Fannie/Freddie intra-month prepay reports.
4. Add turnover drivers (existing and pending home sales, seasonality, day count) and, for non-agency, prepay penalties and call risk.
5. *Answer template:* “Last month’s speeds were [x] CPR per [source]. With rates at [y] versus collateral WAC of [z], [share] of the pool is in the money. Refi apps are [trend] per MBA; intra-month data points to [faster/slower]; seasonals turn [positive/negative] into [months].”

Example 5: “What did the last CRT deal price at?”

1. Go to the Fannie Mae CAS Pricing page or Freddie Mac STACR Pricing page and take the most recent deal: tranche sizes, spreads over 30-day average SOFR, credit enhancement and ratings.
2. Compare with the prior deal from the same program and series (for example DNA versus HQA for STACR, which differ in LTV profile).
3. Add dealer color on secondary CRT spreads and demand.
4. *Answer template:* “[Deal] priced on [date]: M-1 at SOFR + [x], M-2 at SOFR + [y], B-1 at SOFR + [z], per [Fannie/Freddie pricing page]; that is [tighter/wider] than [prior deal] by [n] bp.”

Appendix A: What is only available paid

To be explicit about what you cannot get for free: live TBA prices and current-coupon spreads (Bloomberg, Tradeweb, dealer runs); non-agency and CRT secondary spreads (dealer runs, Bloomberg); bond cash-flow modeling (Intex, Bloomberg); standardized Non-QM/DSCR/jumbo/CES/HELOC loan-level performance (dv01, Intex, Cotality, KBRA Premium); agency prepayment databases (ICE eMBS, Recursion, Bloomberg); lock-level Non-QM rate data (Optimal Blue Market Data License); full-text trade newsletters (Inside Mortgage Finance, Asset-Backed Alert, ASR); servicing loan-level data (ICE McDash); most Moody’s and S&P research. The free alternatives in this guide are good for context and for many PM questions, but they are not substitutes for live levels.
